

## Health Care Practice Tip - August 2022

### Monkeypox: Your Rights to Testing, Vaccines, and Treatment

Monkeypox continues to spread throughout California. Patients have the right to receive testing, vaccines, and treatment – often for free!

The Health Consumer Alliance has a [new website](#) that describes those rights and more. When new information about health coverage and monkeypox is available, we will update the website.

Please visit our [new monkeypox website](#) for the very latest on coverage for monkeypox testing, vaccination, and treatment.
